## Comments by CEO Tero Virtala

In the first quarter of 2025, Remedy's revenue increased by 24.1% from the comparison period and was EUR 13.4 (10.8) million. Development fees and royalties increased. Development fees were driven by higher fees from *Control 2* and *Max Payne 1 & 2 remake* while royalties increased with the sales of *Alan Wake 2*. After exceeding the 2 million units sold milestone at the end of Q4, *Alan Wake 2* has continued to sell steadily and accrue royalties. In the first quarter the operating profit

was EUR 1.3 million, improving by EUR 3.4 million from the comparison period. EBITDA was EUR 2.6 million, improving by EUR 3.8 million from the comparison period.

During Q1 2025, our game projects continued to develop at a good velocity.

In the first quarter, a new *FBC: Firebreak* gameplay trailer was released in the Future Games Show on March 20th to kick off the game's marketing campaign. The trailer was supported by previews of the game from members of the press as well as content creators.

Based on the previews, the early reception for the game has been positive. The game was characterized as interesting and positively distinctive in relation to other competitive titles on the market. We have carefully positioned *FBC: Firebreak* to differentiate it from other similar games, and to offer an interesting proposition to existing *Control* fans and to be relevant for a wider co-op audience.

### Self-publishing

Marketing and publishing for *FBC: Firebreak* is being driven by Remedy's internal publishing team. With the publishing rights to *Control* fully returned to Remedy, our publishing team has expanded to include team members focused on supporting our existing portfolio — a group we call 'back catalog support'. Their work includes, for example, releasing limited updates for older titles and adapting them for new platforms, such as the *Control Ultimate Edition* for Mac, developed in collaboration with Apple. The importance of long-tail sales has kept on increasing for digital games. For that, we have a dedicated team to ensure our games' longevity in the digital storefronts and continue to also actively support and promote *Alan Wake 2* with our partner Epic Games.

### Games in development Q1 2025

*FBC: Firebreak* is in full production. The development team has been primarily focused on balancing the metagame. Quality assurance support is being ramped up as the day 1 experience is being polished.

*Control 2* moved to full production in February and is tracking well towards its next milestones. Team is working on expanding the content from Vertical and Horizontal Slices to the whole game.

*Max Payne 1 & 2 remake project* has made great progress and remains in full production. In Q1, the team has advanced steadily toward major development stages in several critical areas, working alongside the game's publisher, Rockstar Games.

As highlighted during our Capital Markets Day in November 2024, Remedy embarked on a new strategic chapter in Q1 2025. We are delivering on our core strategic pillars, with a particular emphasis on self-publishing all Remedy-owned titles. *FBC: Firebreak* will lead the way as the first in a series of regular game launches, signaling our commitment to a steady cadence of releases. This upcoming title is both exciting and distinctive. I'm eager to see it in the hands of players.

On the financial front, I'm delighted to report that Remedy returned to profitability in Q1 2025. This result aligns with our stated outlook for the year and supports our longer-term financial objectives, reinforcing the strength of our strategic direction.

## **Outlook 2025 (unchanged)**

Remedy expects its revenue and operating profit (EBIT) to increase from the previous year and operating profit (EBIT) to be positive.

## **Long-term business prospects**

We have two established own franchises, Control and Alan Wake, which are linked through the Remedy Connected Universe. Remedy will self-publish upcoming games, in which Remedy owns the IP. Growing and expanding the two franchises will be a key part of our future. In addition, we work with a partner franchise Max Payne, originally created by Remedy.

By 2030, we aim to be a highly regarded creative studio with sustainable, significant commercial success. We have set ourselves the following financial targets: 1) Double the 2024 revenue by 2027 with continued growth beyond this milestone and 2) EBITDA margin of 30% by 2027 and maintain that minimum level throughout the strategy period.

## Risks and uncertainties

The most substantial short-term risks and uncertainties are:

- Remedy's game development efforts may fail if the company is unable to develop its games within set mandates, such as release schedule, quality, and budget. Additionally, the company's games may not generate sufficient sales after their release, even if well received and of high quality, thus generating less than estimated game revenue for Remedy.
- Remedy has entered into long-term agreements with its partners related to game projects in development. If the company failed to satisfy key contract obligations, its partners could terminate their agreements with, or present claims to, the company.
- Remedy is planning to self-publish its games based on fully owned IPs and is this way taking more financing risk in game development. In case the self-published games are not successful and do not generate sufficient sales, Remedy carries the risk of the games not becoming profitable.
- Remedy's success depends significantly on its ability to hire, train, and retain skilled personnel. If the company fails in these areas, it will be unable to effectively conduct its business.
- Remedy's business is subject to economic, market, and geopolitical conditions, which are beyond its control. Possible significant fluctuations in currencies, especially USD exchange rate, could have effects on Remedy's profitability.

The above-mentioned risks might, if they materialize, have a significant negative impact on Remedy's business operations, result, financial position, outlook and share price.
